## THE TYPHOON.

Throughout the day the red drum has ornamented the yard-arm of the *Victor Emanuel*, and we note by the weather report issued at 4 p.m. that the barometer has fallen since 3 a.m. up to 4 p.m. from 29.64 to 29.55.

## LOCAL AND GENERAL.

CAPTAIN DENTON, one of the most popular officers of the Rifle Brigade, left here to-day for Kobe by the *Empress of Japan*.

THE Governor of Nagasaki has ordered all the schools in Nagasaki to be closed during the prevalence of the epidemic of cholera there.

DR. KITASATO is reported to have discovered a complete cure for cholera, and his inoculations are stated to have met with the most signal success.

THE *Redoubt*, we understand, has just received orders from the Admiral to stay in Hongkong for some time, probably till the arrival of a boat of the same class to relieve her.

A DISPATCH vessel now being built at Kure (Japan) has been named the *Miyako*, and two battleships now being built in England for the Japanese Government will be named *Fuji* and *Yashima*.

We have much pleasure in announcing that the Committee appointed to inspect and report on Mr. Cooper's designs for the new Public Offices have, with the exception of Mr. Cooper himself, condemned them.

THE Japanese are busily engaged in exhuming the bodies of their soldiers killed in the Liaotung Peninsula. The remains of the warriors are cremated, and the incinerated ashes deposited in small boxes, which are sent to Japan for burial in their native place.

A CORRESPONDENT wishes to know whether letters for delivery in Hongkong are taken by the *s.s. Hongkong*. He quotes the following which appeared in the *Daily Press* yesterday morning: "A mail will close for Hongkong per *Hongkong* to-morrow, the 4th instant, at 8.30 a.m."

At the Sailors' Home last night an impromptu concert was given as a sort of "send off" to the officers and crew of the British ship *Fort Stuart*. The programme consisted of songs, violin solos and recitations. The room was fairly well filled and a number of ladies took part in the pleasant reunion.

THE Sanitary Board will doubtless be interested in the following excerpt from the *Strait Times* of the 28th ultimo:—"The master of the British steamer *Nam Yong*, which arrived this morning from Amoy, reports that *seven* deaths occurred during the voyage, three from debility and *four* from *cholera*. The *Nam Yong*, that the Health Officer of Amoy will be glad to note this para.

A CHINESE child was cleverly brought up with a "round turn" on Monday night by Inspector Withell. Several complaints having been made at the Yau-mat Police Station of the manner in which a notorious "ricksha" poolie habitually extorted money from passengers by using abusive language, Inspector Withell dressed civilian's garb, and after having a drive in the ricksha in question, the ricksha was offered his legitimate fare. He, however, tried his old game on, with the result that he was marched off to the Station. At the Magistracy yesterday afternoon he was fined \$2, and the magistrate "talked some" to him.

FROM the report of the Tanjong Pagar Dock Company, which was issued on the 28th ultimo, it appears that the net profit for the half-year ended 30th June last amounts to \$158,085, which, with the balance of \$32,441 brought forward after payment of law disbursements, makes \$190,526. From this sum the directors recommended the payment of an *ad interim* dividend of 7 per cent for the half-year, leaving \$166,027 to be carried forward. The changes on the Board have been Mr. James Miller and Mr. John R. Cunningham retired, and Mr. Arthur P. Adams and Mr. John Finlayson elected, the latter resuming his former position of Chairman.

THE following urgent telegram from Kanazusa reached Hongkong on the 19th of August last. It shows that the Mohammedan rising in a very serious affair:—"The prefectural city of Haining is now completely invested by the rebels, who also hold all the towns belonging to the jurisdiction of that prefecture. The Mohammedan rebels from Millikou and Maying, having approached Pinghsien, were attacked by Kwei, acting magistrate of Linhsien, at a place called Yaocshieh, but he was defeated. In consequence of this the rebels have also attacked Pinghsien and the telegraph lines connecting cities west of that city have on that account been torn down and destroyed by the brigands. Hohlien is still besieged and hard pressed, and our affairs are in a critical state. It is therefore urgently requested that orders be sent to General Tsang Po-hsing (Commander-in-Chief of Kaabaria) and Mr. Pi-wetse, that they hasten to the distressed districts. A very urgent and important telegram."

THE New York *Sun* published the following news, concerning the resignation of the Duke of Cambridge, on the 27th ultimo:—"Statements made here respecting the circumstances under which the Duke of Cambridge promises to retire from the post of Commander-in-Chief of the British army are simply confirmed by the authoritative quarters. The old Duke was urged into the step which he took with extreme reluctance and many protests. He and Minister Campbell-Bannerman had repeated conversations over the matter, and the Minister's opinion finally prevailed over royal authority. It may be permitted to reflect, therefore, upon the joy with which Queen Victoria and her family heard of the defeat of the Liberal Government in the House of Commons, and the gladness with which they were relieved of the political burden which had been placed upon them."

## CHINA'S WAR INDEMNITY.

MR. HO TUNG SAYS IT WILL BE PAID WITHOUT INCREASING TAXATION.

VALUABLE SIR ROBERT HART.

A HONGKONG MERCHANT'S VIEWS ON THE EFFECTS OF THE LATE WAR.

Among the files of Frisco papers received by the P. M. S. S. Co.'s speedy liner *China* this morning was a copy of the *Chronicle* containing a picture (we say picture advisedly for the woodcut is far from being a faithful representation) of the deservedly popular and scholarly original of Mr. Ho Tung who appears to have got into the clutches of some irresponsible interviewer in the far-famed city of San Francisco. As soon as this screed, short and sweet, had been read, marked, learned and inwardly digested we decided to show what can be done by the *Hongkong Telegraph* on short notice, and being ably assisted by our artist we are able to publish to-night a facsimile of the portrait in question, together with an exact copy of what Mr. Ho Tung is reported to have said on the important question of the main results of the recent war, thus:—

## THE MYSTERIOUS DEATH OF NO. 43.

## THE INQUIRY CONCLUDED.

At the Magistracy this morning the Coroner recorded his finding in connection with the inquiry into the death of the Chinese Customs gigman (No. 43) whose body was found in the Aberdeen bay on the 5th ultimo.

THE CORONER: Inspector Bremner, are you in charge of this case?

INSPECTOR BREMNER: Yes.

THE CORONER: You do not ask for a further postponement?

INSPECTOR BREMNER: I do not think we can find out anything further.

THE CORONER: I find that death resulted from hemorrhage and shock occasioned by mutilation of the body and a wound on the left leg, but under what circumstances occurring there is no evidence to show.

## ANOTHER INQUIRY.

INSPECTOR BREMNER: I have got another case, that of a German named Hermann Michael whose body was found in Wongcheking Gap Road. I think it would be better to have a post-mortem examination on the body to find the bullet, as he appears to have been shot.

INSPECTOR BREMNER: Yes.

THE CORONER: Well, I will give you the order. Have a post-mortem examination and then bury the body.

The inquest will be held on Friday morning.

## A BOUNTY TO THE ORIENT.

The following critique on Mr. T. H. Whitehead's instructive and interesting paper on the much-vexed silver question appeared in the *San Francisco Call* on the 4th ultimo, received by the *China* from the States to-day:—

"It may be accounted as a benefit to America that the elaborate address on *The Critical Position of British Trade in the Orient*, delivered by T. H. Whitehead, a member of the Legislative Council of Hongkong, before the Royal Colonial Institute, last February, has been published in pamphlet form and given a wide circulation. Though addressed to the British people, it contains valuable lessons for Americans in the proof of which it affords of the importance of the remonetization of silver and the maintenance of protection."

"In his address Mr. Whitehead discloses a thorough knowledge of the conditions of Oriental industry and trade, and shows a careful study of the effect produced upon them by the demonization of silver. He asserts that the establishment of the single gold standard in Europe and America has acted as a bounty to promote Oriental manufactures. It has made the silver money of the East cheap and abundant, while in this country and in Europe gold has been dear and scarce. The industries of the whole race have been cramped by stringent money markets, while those of the brown race have expanded under the stimulus of a larger supply of money than they have ever known before."

"The statistics quoted by Mr. Whitehead show that manufacturing industries rapidly increased in India until the closing of the Indian mints to the coinage of silver put an abrupt stop to their expansion. What was lost in India, however, was made up to the Orient by the expansion of manufactures in China and Japan. These, it is true, were interrupted by the war between the two nations, but enough had been already accomplished in both countries to show what it is feared if money continues stringent in Europe and America while it remains abundant for the cheap workers of the East."

"It is not manufacturing only that suffers in the gold countries. Agriculture also feels the depression. Mr. Whitehead says: 'Let us for a moment consider one article, Indian wheat and English wheat. It is sold in the same market, and practically at the same price, but the price which brings disaster to the British farmer gives prosperity to the Indian farmer, yet the Indian farmer has not adopted any improvements in cultivation in the last twenty years. Why, therefore, is it that he derives prosperity from the price which is ruinous to the British agriculturist? The whole question is summed up in the single factor of exchange, or the inadequate medium through which British trade is carried on.'"

"Mr. Whitehead concludes that at no very distant date the productions of Oriental labor will have considerable influence in the markets of England, and that prohibitive duties are imposed by Government. These words of warning may not have much influence in England, where free trade and the single gold standard have been a species of national superstition. The lessons conveyed by them, however, will not be lost upon Americans. We are not likely to continue much longer a policy which restricts our own industry while expanding that of the Orient, nor are we likely to have our industries enervated by Oriental competition. Protection not hindered, are rapidly becoming the joint watchwords of the people, and under a Republican administration both of them will be embodied in the laws of the land."

## STRANGE REQUEST FOR PEACE IN FORMOSA.

## AN INNOCENT BUT INTERESTING LETTER.

The following is the *Mercury's* rough translation of a letter dated July 31st, which appeared in the *Shanghai Sun* on the 29th ultimo. It is said to have been sent by the Tientsin (北平) or Representatives of the people of Tientsin, to the Japanese Viceroy at Taipei, asking for a termination of war:—

"On looking back on how the ancient Emperors governed their country it is apparent that those who gained the people's affection did so by their virtue, and they were accordingly favored by heaven, and the anxiety of the people to obey them was as water running down to a ditch and crops longing for rain. We have never heard that a country carrying sword and fire through various places will cause much submission on the part of the people they subject. Last year, your country (Japan) broke the peace, raising arms against our country. Unfortunately our Prime Minister (Li Hong-chang) took the whole responsibility of the war and appointed useless leaders to the army and navy, who were his partisans. Not only the whole country of Korea has been lost, but also important keys of North China—Port Arthur and Weihaiwei—were handed over to your countrymen by these men, without troubling your countrymen to raise a single arrow. Our Emperor was deeply sorrowful for these actions of the General and the disobedience of the soldiers. For this reason our Emperor was obliged to agree to the cessation of hostilities. On hearing this sad news we were exceedingly touched. We are aware that people obeying imperial orders are called obedient subjects, but as we have long deserved the kind treatment of the Ching dynasty and followed the precepts of our ancient wise men, we will never bend our heads to the yoke of your brutal Government. Since the flight of our Governor Tang, our brave minds were more strengthened, and even the weak people of Tientsin and Shantung are also anxious to join our party to show their bravery. Within these last two months several battles have been fought between them and you, but they have generally given favorable results. If such weak people as those of Tientsin can do so well, what will the southern braves do? These soldiers are not only brave but also disciplined and obedient. The people are arming, and they will gladly seize the honour of fighting the Japanese. The entrance of Tientsin is now protected by ten battalions of well-armed soldiers, and about ten miles from the entrance, walls and bridges have been erected. By these defensive works you may imagine the result of an attack. With such forces, headed by Liu, it will not be difficult to defeat an enemy. If our two nations (Japan and Formosa) keep on the war, we have no doubt valuable lives will be lost, therefore we should have peace. If the Japanese are willing to have peace friendly in a mutual, we are willing to accept it. An unemployed man was sent up for five days, for stealing a mat. For stealing \$5 a coolie was sent up for six weeks. For annually, three men were given one week each."

It is difficult to quickly reinforce your generals care but for honest and not for the poor soldiers, who are surely full of distaffs. Besides, cholera is visiting Formosa and most of your soldiers who have not succumbed to that disease must fall in battle. We, seeing your present state, deeply regret it, and moreover, your idea in giving up a successfully obtained Korea to take an uncertain Formosa is not a good one. We hope you will consider our words and give a favourable answer."
